

Short CV

Christiane Bardroff, COO

Christiane Bardroff studied biotechnology and chemical engineering at Emden University of Applied Sciences, Germany and Zhejiang University of Science and Technology in Hangzhou, China. She joined Rentschler Biopharma as SVP Client Program Management in February 2022 and, since May 2022, also has been responsible for Clinical and Commercial Manufacturing at the Laupheim site as SVP Clinical and Commercial Manufacturing. Prior to joining Rentschler Biopharma, Ms. Bardroff was responsible for the construction of Teva Biotech's highly automated, large-scale biotechnology production facility in Ulm, Germany. In her role as Senior Director Operations Biotech, she led the site leadership team and was part of Teva Biotech's global leadership team. Prior to that, she worked for many years at Roche; where she gained strong experience in the production of various biotechnology products, as well as in automation, IT and project management. Christiane Bardroff has been Chief Operating Officer of Rentschler Biopharma SE since 1 December 2022.
